No. 2021/540-86 Encl.

FROM

THE ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore

Dated Bangalore, 4th July 1891

SIR,

With reference to Correspondence ending with your letter Camp No. 116 dated the 15th September 1888, I am directed to forward a copy of the Proceedings of the Board of Revenue, Madras from which it will be seen that salt Modas are worked in certain villages of the Mysore District within the prohibited distance of 5 miles from the British frontier.

2. In asking for the favour of a report on this subject, the Resident hopes that the Durbar will take necessary steps at their earliest convenience for the effectual suppression of such irregular manufacture.

No. 3464 dated 12th June 1891.

I have the honour to be
Sir,
Your most obedient servant
[illegible] Captain
Assistant to the Resident

Revenue Department

Proceedings of the Madras Government

Read the following proceedings of the Board of Revenue (Separate Revenue) dated 14th May 1891 No. 1587 Mis: on the following letter from G. W. Browne Esquire Assistant Commissioner of Salt and Abkari Revenue Calicut Subdivision to the Deputy Commissioner of Salt and Abkari Revenue, Southern Division dated 28th April 1891 No. 1623.)

I have the honor to report that the Inspectors Coimbatore and Erode have from time to time reported in their diaries the existence of earth-salt manufacture in the villages of Mysore Territory adjacent to the Kollegal Taluk of Coimbatore Circle now included in the Erode Circle. I accordingly ordered the Inspector of the latter to visit the different modus, and to report. This he has now done, and it appears that the manufacture of earth salt within

5 miles of British Territory which was prohibited by the Mysore Government (vide Board's Proceedings No. 566 dated 14th October 1887) is still being carried out to a considerable extent within the prescribed belt in some places openly in others clandestinely.

2. The Inspector visited the under noted modas situated approximately at the distances noted against each from the boundary of Kollegal Taluk

1	Kistur	— 1 mile	3 modas working	
2	Hosur	— 1 "	2	" "
3	Tillanur	1/8 "	7	" "
4	Demahalli	4 1/2 "	15	" "
5	Begahalli	4 "	10	" "
6	Hosahalli	4 "	1	" "
7	Mugur	4 "	1	" "

At numbers 1 and 3 manufacture was actually going on at the time of the Inspectors visit and from the facts that filters and pots containing brine besides numerous scrapings and heaps of lexiviated salt earth were found at all the others, it is evident

evident that the prohibition against earth salt manufacture is simply a dead letter at these.

As regards distance from British territory of number 4-7 there may be some doubt but none whatever as regards numbers 1-3.

At the villages of Damahalli, Kamaravadi, Kamahalli and Kattode also within 5 miles belt, indications of clandestine manufacture in houses were found but the modas were apparently not being worked.

It is requested therefore that the matter be brought to the notice of the Mysore Government with a request that the manufacture within the 5 miles belt be entirely suppressed and further that the villages and hamlets lying within such belt be clearly specified in order that there may be no doubt as to whether a certain moda is or is not within the limit.

Read

Read also the following endorsement thereon by the Deputy Commissioner, Southern Division dated 8th May 1891 No. 1446.

Submitted to the Commissioner of Salt-Abkari and Separate Revenue with reference to Board's Proceedings No. 3729 Miscellaneous dated 19th November 1888.

2. It is observed that the modas named in para 2 of the Assistant Commissioner's letter are situated within 5 miles of British frontier forming the border of the Kollegal Taluq. It is not probable that the modas in question were duly licensed by the Mysore Government. They must have been clandestinely made use of. I would therefore request that Government in the Political Department be moved to address the Mysore Government in view to its taking effective measures for the entire suppression of Earth Salt manufacture within the belt. I would also suggest that the villages and hamlets

From

D. Nanjunda Rao Esq.
Offg. Deputy Commissioner
Mysore District.

To,

The Chief Secretary
to the Government of Mysore.

Sir,

In acknowledging the receipt of your docket no. 4281/160 dated 11th ultimo together with its enclosure on the subject of manufacture of earth-salt in this District within five miles of the British frontier, I have the honor to state that the 7 villages mentioned in para 2 of the Proceedings of the Government of Madras belong to different Taluks of the Mysore State as noted in the margin

1. Kestoor — Yelandur Taluk
2. Hosoor — Chamrajnagar Taluk
3. Tillakwadi
4. Devanahally
5. Bagalwadi
6. Hoskhally — Tirumakudlu Narsipur Taluk
7. Hosagaon

2. The Amildar of the Yelandur Taluk

report

reports that he inspected the villages in person and found no traces of salt having been manufactured either recently or at a distant date

3. Of the 3 villages in the Chamraj nagar Taluk Tellanoor is Government village wherein the Amildar reports no salt pans are forthcoming and that he discovered no traces of manufacture. The remaining two are Inam villages wherein 25 pans are in working order. The Amildar has been ordered to stop the working of these pans and the Inamdars have been informed that manufacture of salt within five miles of the British Territory is prohibited.

Did he visit personally? If not he should once visit his personal attention, further,

This requires notice and rules declaring implies assent and disregard of Standing orders. What have the Patel & Shanbhogue & Sheristadar to say. The rules of the Amildar should be called for. Who has till recently been Amildar & he ought to be reported in due course

4. In Turuvakudlu Narsipur Taluk 2 "molay" have been newly opened one in each of the villages of Hosahalli and Doggur. These are situated beyond five miles from the British frontier.

Even new salt pans within the State are prohibited. Under what circumstances were these licensed

5. The villages of Devinahally and Kamaravadi belong to Chamraj nagar

Taluk

Taluk and the Amildar's report states that no trace of clandestine manufacture in houses was detected. The remaining two villages, namely, Kamalally and Katnode do not belong to this District All the Amildars on the frontier of the Coimbatore District report that the villages in question are not in their Taluks

Did he inspect personally or is this suspicion only? Nothing less will a nonce. Yes

6. A list shewing the names of the villages within five miles of the British frontier is herewith submitted.

The Sub should order an ittiyan to strictly suit manufacture in these villages & every month should take and send a certificate from the village officers that no salt is manufactured in these villages - the certificate should be tested by the Amildar Yes

I have the honor to be

Read,

Letter No. 392 dated 8th instant, from the Deputy Commissioner, Mysore Dist, submitting report in re the clandestine manufacture of earth-salt in certain villages of the Chamraj-nagar and Tirumakodlu-Narsipur Taluks.

Order - No. 6393/229 dt/ 31-8-91 / 2-9-91

The existence of 25 salt-pans in Dimahalli and Bagéhalli in the Chamrajnagar Taluk as reported by the Deputy Commissioner, requires notice, and unless explained, implies a serious disregard of standing orders. The explanations of the Patél, Shanbogue and Shaikdar of the said villages, together with that

that of Amildar Govin-dappa who was till recently been Amildar in Chamrajnagar, should be obtained and reported in due course.

2. In the Tellanúr, Démahalli and Kamara-vadi villages of the same Taluk, the Amildar is stated to have reported that there are no salt-pans and that no ma-nufacture of salt was detected, (vide paras 3 and 5 of the Deputy Comrs letter). This contradicts the report of the Madras Salt Inspectors. But it is not apparent whether the Amildar visited the villages personally. If he did not, he should

do

do so at once and submit his personal testimony forthwith. His attention will be drawn to the orders contained in Procs: No. 3276-83 / Cir 51 dated 17 June 1891

3. The circumstances under which 2 "molays" in the Hosahalli and Mûgûr villages of the Tirumakoodlu-Narsipûr Taluk were newly opened near Kuen new salt-pans within the State are prohibited, should be explained.

4. The Deputy Commr: should order an Ishtigar, prohibiting salt manufacture in the villages within 5 miles of the British frontier, as per list received with his Communications No. 392 & No. 402, and require every Jamabandi officer

From

A. Rangasami Ayengar Esquire
B.A. B.L.
Deputy Commissioner

To

The Chief Secretary to the
Dewan of Mysore

Sir,

Adverting to Proceedings of Government No. 6393 dated 27th August 1891 I have the honor to report that the village officials of Sarna-mangya Bagali and Jodi Dimaballi villages in the Chamarajanagar Taluk report that they were not informed of the order of Government prohibiting the manufacture of earth salt in villages within 5 miles from the British frontier, but state that they knew that three years ago the agent of the village came and took measurement of distance between the British frontier line and the places where the Modas were being

worked - In places where the moodas came within 5 miles he ordered the works to be stopped or removed to places which were beyond 5 miles from the said frontier - One man immediately obeyed and the others continued to work in their old moodas - About the month of September 1891, the amildar went to these villages and on explaining to the villagers the orders of Government they at once removed the moodas to places beyond the prohibited distance - The explanation of amildar Govindappa though long contains no accurate information beyond issuing orders to the Sheikdar in 1888 to put a stop to the manufacture, he does not seem to have exerted himself to find out by personal inspection if his orders were carried out - This fact is borne out by the circumstance that the Excise Agent's order was partially in force till Amildar Ramachendra Row

management for an agent on behalf of Inamdar who failed to give effect to the orders issued to him. Owing to this and the indifference displayed by the Salt authorities the result is that orders issued so far back as 1888 have not been duly carried out. The

1. Amildar Govindappa's explanation ending with Channarajanagar Amildar's report No. 111 of 27 July 1892.
2. Amildar Ramachendra Rao's report No. 58 of 21-5-92 containing village officials' explanations to the address of the 3rd Revenue Assistant Commissioner, Mysore.

marginally noted Canarese papers containing the explanations of the officials referred to are enclosed for information and kind return.

3. The Amildar says that he is satisfied that there are no working pans in the Belamer and Kamardi villages, and that the Salt Inspector must have been misled into thinking that there was manufacture in those villages by the

mere sight of the mounds of earth thrown at old working places. If the Salt Inspector still believes the existence of manufacture in those villages, the Amildar undertakes to meet him on a day to be fixed for the purpose and go over the villages in his company. The Amildar's report No 111 dated 8th February 1892 is filed with the papers quoted in the margin of para 1.

4. In para 4 of this Office letter No 392 of the 8th August 1891 it is stated that 2 moleys have been newly opened one in each of the villages of Hosaballi and Mugur. It is not quite correct. It is a fact that there were salt pans in those villages previous to the issue of Government Notification and subsequent to that the manufacturers abandoned their old places of working and collected materials at two different places and solicited

Taluk within 5 miles
from the British
frontier

Draft submitted
15/2

No. 641

Deputy Commissioners Office,
Tiptur District.
Dated 25th January 1895.

To

The Chief Secretary
to the Government of Mysore.

Sir,

With reference to your Memorandum No. 9728 / R. F. 253-92 dated the 12th December 1894 forwarding for report copy of letter No. 4139 / 540-86 dated the 30th November 1894 from the First Assistant to the Resident in Mysore regarding the manufacture of earth salt in the village of Siddé-gauté in the Huchchagiri Taluk within 5 miles from the British frontier contrary to Government orders, I have the

honor to state as follows:

2. "When on the 13th May 1893 some of the manufacturers of earth salt named Gangya, Siddia, Kadariga, Chietta Hanoo-ma prayed that the pans in question might be farmed out to them on the ground that they chiefly depend on this trade for their livelihood and the Amildar recommended their prayer, enquiry was made in this office No. 526 dated the 1st December 1893 if the pans were not within 5 miles of the British frontier. In reply, the Amildar stated that they were beyond

5 miles. Thereupon, in this Office No. 611 dated the 10th January 1894, the Constables was told to farm them out There they were let out. The Taluk Treasurers report shows that they are 830 Chains (or 5 miles and 1/2 furlongs) from the British frontier. But the British Salt Inspector says that they are within 4 miles and 7 furlongs from the British frontier. The difference is within 3 furlongs. Either the British authorities might overlook this small difference and allow the pans to continue

on sites many close thereafter the term of the present lease expires in a few months.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner.

(2)

To The Asst Supt to the Resident
in Mysore

Sir

With reference to your
letter No. 4139/540-86 dated
30th March 1894, regarding
the manufacture of earth
salt at the village of
Suddagunte in the
Maddagiri Taluk of the
Tumkur Dt, within 5 miles
of the British frontier
I am directed to forward
herewith copy of letter
No 641 dated 25th January
1895, from which it will
be seen ~~that it is~~ doubtful whether
the village is within or
beyond the 5 mile limit
~~I am however to state~~

No 277 . 8/19.2.95
R.F. 253-92 20

Inj

that the pass it is doubtful whether the pass is

It is however clear that the village is ~~within~~ in close proximity to the ~~two furlongs of the~~ 5 mile limit and I am to state that

~~that of the Madras Govt~~
~~desires~~, the manufacture
of salt in the village
in question will be
stopped on the expiry
of the current lease
which will end in a
few months
